November 15, 1985

Mr. Donald Smith, Airport Manager  
P. O. Box 80245  
Seattle, Washington 98108

Dear Mr. Smith,

During the evening hours of November 8, 1985, an oil spill of jet fuel, from Flight Craft, entered the storm drain system of the King County Airport. Due to the knowledge and quick action by the airport police staff the oils were contained within the airport drain systems for ultimate recovery.

Throughout the cleanup effort we called on your staff to aid us in various ways. In all ways the policing personnel acted in a cooperative and congenial manner. The efforts of your staff and the cleanup contractor resulted in a very successful effort.

We wish to extend, to you and your staff, our expression of gratitude.

Sincerely,

Craig Baker
